

Product Backlog

7

Only the PO can contribute Product Backlog Items.

Avoid

The PO should actively encourage stakeholders and the Team to contribute their suggestions as new backlog items, and then prioritize them appropriately. Adding an item in the Product Backlog does not mean it will ever get done. Actually, most ideas won't.

Product Backlog

8 The Product Backlog is regularly updated and refined, collaboratively by the PO and the Team, to keep top items "ready" for the Team to work on in next Sprints.
