

# Scrum Master

## Assigning & tracking tasks

Ensuring that all appropriate tasks have been written down and estimated, assigning them to right people, tracking their progress and completion, etc.

## Actively Avoid

This is the responsibility of the Development Team as part of their self-organisation. It would be best if the Team took entirely care of this. Otherwise the ScrumMaster is on a slippery slope to become a project manager.

# Scrum Master

## Protecting Team

Ensuring that the Team can focus on delivery, that it is protected from disruption or undesirable interruption, that they can only take in work they believe they can deliver in each Sprint, etc.
