Formal change management

Ensuring proper planning, decision-making, and documentation for change requests, keeping track of current changes in progress, reporting on changes, ensuring contractual updates, etc.

Scrum Is Silent

In many environments, proper change management (or at least documenting agreed changes) is a very important risk management activity. Contracts do play an important role in many interactions and need to be cared for. Someone has to do it but not necessarily Scrum Master.

Responsible Helping with Actively Avoid Scrum is Silent
