

Product Backlog

15

The Team can pull backlog items from multiple backlogs, prioritized by separate PO's.

Avoid

This should be very strongly avoided since it implies that the Team must prioritize their work between the PO's. Instead, have one of the PO's (or someone else) be the one PO and other PO's become stakeholders.

Product Backlog

16

The Team should maintain
a separate technical backlog ?
for their own use.
