Scrum Master

18

Visualizing information

Collecting data and presenting it in some visual format, teaching Team and PO to visualize their information, making information present in the working environment, etc.

Helping with

Collecting data and visualizing it is a great way to help the Development Team and Product Owner in owning and improving their work. They should still own them. If some data or visualisations are not useful to them, they should drop or change them.

Responsible   Helping with   Actively Avoid   Scrum is Silent

Scrum Master

Working with Backlog & stakeholders

19

Collecting feedback from stakeholders, understanding what ? is important, keeping the Backlog clear and effective, collecting data for feedback, etc.
