Product Backlog

Sort the cards into appropriate categories –

RULE

A definition of what a Product Backlog is.

GOOD PRACTICE

A practice which is commonly done and is good to do.

AVOID

A practice which, in most cases, is recommended to be avoided.
But, for almost all of them, it's possible to imagine a scenario where that practice would make sense.

Product Backlog

1

Product Backlog Items
at the top of the
Product Backlog have
been refined and are at
higher level of detail
than lower priority items.
