# Product Backlog

**9**

User-facing
Product Backlog Items
are often written as
user stories.

## Good Practice

Scrum is silent on how to write the backlog items. User stories is a great way to describe user requirements / interaction. But other types of backlog items are also useful, e.g. bugs, improvement tasks or various events.

**RULE**  **GOOD PRACTICE**  **AVOID**

# Product Backlog

**10**

Product Backlog Items
are estimated, typically using
some relative estimation
approach by the Team.
